U. S. weather bureau forecast for New Mexico: Fair, followed by increasing ondiness Wednesday.

The young folks in the city who know ow to skate, or think they do, will hold carnival on the ice ponds near the Santa Fe depot, tonight.

The merchants of Santa Fe report a very fine business during the holiday season just closed. Had they been more liberal advertisers, their business would have been still better.

The board of penitentiary commissioners, Hon. O. A. Hadley presiding, is in session today, at the territorial penitentiary, attending to regular business

There will be the regular weekly meeting of Santa Fe lodge No. 2, K. of P. this evening at 7 o'clock at Castle hall. Installation of officers. Yisiting knights given a cordial welcome.

The city council has adopted a very peculiar custom, that of going into executive session when anything important comes up for action. There is no necessity for secrecy about the actions of the council and the citizens of Santa Fe are entitled to know what is going on. The custom should be stopped.

#### Capitol Rebuilding. Superintendent Rapp informs the

NEW MEXICAN that the strike of the persons employed to guard the convicts employed on the work of capitol rebuild-ing has not delayed the work, as it was not intended during the past two weeks to employ a full force, partly on account of the unsettled condition of the weather and partly because it was desired to set a lot of the cut stone and thus make room for more. The first story walls of the north half of the building are about completed and a small force of skilled men is employed laying stone and brick on the south half of the structure. A full force will be put on about the first of next month. Mr. Rapp says there will be no trouble about securing plenty of guards when they are needed.

### STEIN'S PASS TRAIN ROBBERS.

Sheriff McAffee Will Keep Them in Grant County Jail-No Resoue Can

Marshal Foraker states that there is to truth in the rumor that the five men now in the jail at Silver City for the Stein's pass train robbery will be brought to this city and lodged in the penitentiary for safekeeping. Sheriff McAfee has the Grant county jail well guarded and feels that he is able to reguarded and feels that he is able to re-sist any attempts that may be made to release the inmates. So far as the Black Jack gang making any attempts to rescue the train robbers, there is no likelihood of such a movement. The members of that outfit have enough to do to keep out of the clutches of the of-ficers without taking any extra risks at this time.

In conversation with a NEW MEXICAN First judicial district. epresentative Professor Hewett frankly admitts that the prospect of becoming a permanent resident of New Mexico exactly in line with his wishes, as he has the largest confidence in the future of this territory, is pleased with the intelligence, enterprise and energy of the moving spirits thereof, and is of the moving spirits thereof, and perfectly charmed with our beautiful scenery and peerless climate.

'The normal school at Las Vegas will not formally open until September, but, as soon as I finish my year's work at Greeley in June, I expect to begin my work in New Mexico," said Professor Hewett. "The first duty assigned to me by the regents is the pleasant one of visiting the principal places in the terri-tory for the purpose of making the peo-ple acquainted with the objects and advantages of the new normal school. Of course the chief work of the institution will be the educating and training of teachers, but in addition there will be a regular and carefully conducted academic department for the benefit of the young men and young women of the territory who may not

contemplate teaching."

Professor Hewett is a talented, cultivated and genial gentleman with a most enviable record as a teacher. After graduating at Tarkio college in Missouri, he took a commercial course at Burlington and a law course at Sioux City, both in Iowa, and, after serving for some time as professor of history and English literature in Tarkio college, located at Florence, Colo., as superintendent of the similar position. Six years ago he be-came professor of science in the Greeley normal and during the past three years has been at the head of that fine school. Thus he comes to New Mexico with the education and experience that admir-ably equip him for the important task he has undertaken.

vantages of the new normal school. I can talk for the institution with a clear conscience as I am thoroughly convinced that, heartily sustained and supported as it is by the best sentiment in the territory and most eligibly located, it is destined to become one of the notable educational centers of the west.

It is believed in Deming that Mrs. Israel King, will be appointed postmistress when a change is made in the office. Mrs. King is the wildow of the late Israel King, who was a very exemplary and valuable citizen and a good Republican, and who represented forms to the control of th sented Grant and Dona Ana countles in the legislative council of the Twentyninth legislative assembly with credit and ability.

The NEW MEXICAN is informed from Las Cruces, that John Lemon, of that city, is a candidate for appointment as register of the U. S. land office there, register of the U. S. land office there, a vacancy existing owing to the death of the late E. E. Sluder, and has good home support. Mr. Gustave L. Solignac, of this city, is also a candidate, and has some home support. E. A. Chaffee, of Anthony, Dona Ana county, has hear working for some mouths to has been working for some months to secure the office. It is believed that the vacancy will be filled at an early date. The receiver of the office is now attending to the duties of the office.

There is no truth whatsoever in the report, that Mr. J. W. Raynolds, of Las Vegas, has been agreed upon for the ap-pointment as clerk of the Fourth judi-cial district. The New MEXICAN is informed that Mr. Raynolds is not even a public schools there. Thence he went to Greeley to assume the duties of a ridiculous. It is very likely that Mr. W.
